

University of Biskra
Contribution to the quality of education
(Higher Education)

Following Law No. 98-11 of August 22, 1998 on the orientation and program law with a five-year projection on scientific research and technological development, following Law No. 99-05 of April 4, 1999 on the law of orientation on higher education, following Executive Decree No. 219-98 of July 8, 1998 establishing the University of Biskra, following Executive Decree No. 90-09 dated February 17, 2009 and Executive Decree No. 129-14 of April 5, 2014,

- the University of Biskra follows a policy aimed at improving the quality of higher education through various actions such as free access to all academics (students and teachers), to educational resources: university libraries, Internet, training workshops, educational laboratories, research laboratories,
- the University of Biskra also allows non-university people free access to the university's facilities and equipment, such as Startup project leaders from the University of Biskra for the realization of their projects, guests of others sectors (state or private) to participate in training, seminars, workshops, round tables, etc. which are organized by the university, and in this case, the university provides them with all the educational resources necessary for the smooth running of these activities: rooms, computers, laboratories and scientific equipment, etc.
- It also organizes training programs for managers and employees of other sectors such as refresher training, advanced training, short courses, etc.
- Our university organizes university events open to the general public such as open days for the benefit of high school students, visits for middle and primary school students, etc.
- All these activities are intended for invited people without distinction of ethnic origin, religion, disability or gender.

The rector
